FACE OF ALLEN POOLS & SPAS

Allen Pools & Spas

Allen Pools & Spas was founded in 1957 by Dan Allen Sr. who worked for the State of Vermont as a Registered Civil Engineer. He was contacted about designing and building a swimming pool for the Girl Scout Camp at Tammarck Notch in Mendon, VT. He agreed and built his first pool. He was then contacted by a few more people that had purchased pool kits and hired him to install them. Realizing the potential for a thriving business, he started selling and installing in-ground pools all over Rutland and Windsor counties. Even after building hundreds of swimming pools, Dan Allen Sr. never learned to swim a stroke.

Today, we pride ourselves in our commitment and dedication to delivering the ultimate customer experience each and

every time. Sustained through generations of passion and professionalism with genuine regard to every customer, our community, and environment, we believe in representing products that deliver health, relaxation, and lifetime memories.

Since our establishment in 1957, we have sold, installed, and maintained hundreds of swimming pools and thousands of spas throughout Vermont, western New Hampshire and northeastern New York. We have built our reputation on professional, quality, and dependable service. We are available year round for full service on your pool, spa, or sauna. Whether you are looking to buy, need repairs and maintenance, or water care education, we are available 7 days a week!

FACES OF AMERICAN CLEAN ENERGY

Proctor Gas Inc.

Proctor Gas Inc., "The Propane People" with "Roots in the Rutland Area – Not Just Branches", was established in 1966 by Match and Ella Taranovich. Their son (my husband) Jim took the helm in 1986 and I picked up the reins in 2010 after Jimmy's passing in the fall of that year.

I loved hearing the stories of how my in-laws would mingle with their customers on the dance floor at different social events. It was the small town, small company social media of its day! Although the company has grown and we have moved into websites and Facebook, I still believe in the testimonies of neighbors and friends.

After 51 years in business we have gone through many evolutions. We're proud to service the greater Rutland area and

equally proud to carry so many "Made in America" products.

Looking for quality outdoor living products? We have what you're looking for including grills and fire tables, and we're worth a short drive to Proctor.

For Propane – it's safety first!! All our technicians are CETP certified and participate in industry training regularly.

I'm grateful for our customers, past, present and future that have put their trust in us. The only thing better than keeping the trust of a friend, is earning that of a stranger.

**Thank you for choosing Proctor Gas –
"We'll keep the flame burning for ya"!!**

FACES OF HIGHER EDUCATION - CSJ

College of St. Joseph

College of St. Joseph launched the Provider Scholarship Program in 2013 to address national concern over the rising cost of higher education.

The cost-declining financial aid program locks tuition, room, and board costs over four years. CSJ adds to the scholarship each year, so the direct cost to students decreases over time. In exchange, students are required to complete 15 hours of community service each semester, be engaged in campus life, and remain in good academic standing.

CSJ students come from varied socioeconomic backgrounds, and many have said they could not afford college without the Provider Scholarship. The Program enforces the value of giving

back, and fosters leadership skills and civic responsibility. It also allows students to meet local business leaders and develop future career opportunities.

To date, more than 30 community organizations have benefited from the work of Provider Scholars – who have contributed more than 16,400 hours of service since the program's inception – helping to strengthen the community and improve the lives of those they've worked with.

Students have renovated apartments at the Rutland County Women's Network and Shelter, distributed food at Vermont Foodbank, played Bingo with the residents at Bardwell House, and much more.

FACES OF HOSPITALITY ON LAKE ST. CATHERINE

Otto's Cones Point General Store

Rosie and Chris Beckmann of Commack, NY had a love-at-first-sight experience visiting Lake St. Catherine, Poultney in 2014 and snatched up a camp there that same weekend. When opportunity knocked on the other side of the lake the following spring, Rosie and Chris became the new purveyors of a Lake tradition – The Cones Point Country Store.

After rebuilding over the winter of 2015/16, The Cones Point General Store at Otto's Green Mountain Adventure on VT Route 30, Poultney opened June 4, 2016. Now known as Otto's Cones Point or simply Otto's, the spot is a family focused go-to for residents and summer visitors alike.

Otto's chef-led staff serves up fresh restaurant quality takeout, in-house baked goods, top notch catering, and Vermont Wilcox

soft serve creemee ice cream (maple, mmm!). Patrons enjoy outdoor patio seating with live music and artists on the porch during summer weekends.

The original store's miniature golf course lost a few holes during reconstruction but has retained its charm, now as "the only 16 hole miniature golf course in Vermont!"

Otto's loves families and this past year Santa and the Easter Bunny even visited Otto's.

As a Vermont Fish & Wildlife licensing and reporting station, Otto's is also a year-round destination for area outdoorsmen.

Otto's welcoming staff loves seeing new faces and looks forward to seeing yours at the store real soon.

FACES OF LAND USE PLANNING

Rutland Regional Planning Commission

The face of the Rutland region is shaped by land use—by how we, as communities, use our land. At RRPC, we promote land use practices that create great public and private places; protect the environment; provide long-lasting value and build the tax base; support social interaction; enable freedom and choice in mobility; enable healthy lifestyle opportunities; reduce infrastructure expenses; reduce traffic deaths; reduce cost of living; and make our communities unique.

Upholding the Vermont way of life on a human scale is important. RRPC achieves this by balancing local desires; educating citizens and partners about land use practices; and working with towns, developers, and local partners to ensure that the best practices are implemented.

RRPC is also a resource for towns by providing tools and information needed to make smart decisions about economic development, energy, transportation, emergency management and more. RRPC serves as a platform for ideas by creating opportunities and providing space to learn, share and come together around topics that matter and impact our lives. And, RRPC inspires a vision for our future with the cornerstone of our work: The Rutland Regional Plan, a document written by RRPC, guided by our towns.

If you feel inspired to participate in local or regional planning or want to learn more about land use or our work, please visit us in The Opera House or at RutlandRPC.org.

FACE OF MEDICAL MASSAGE

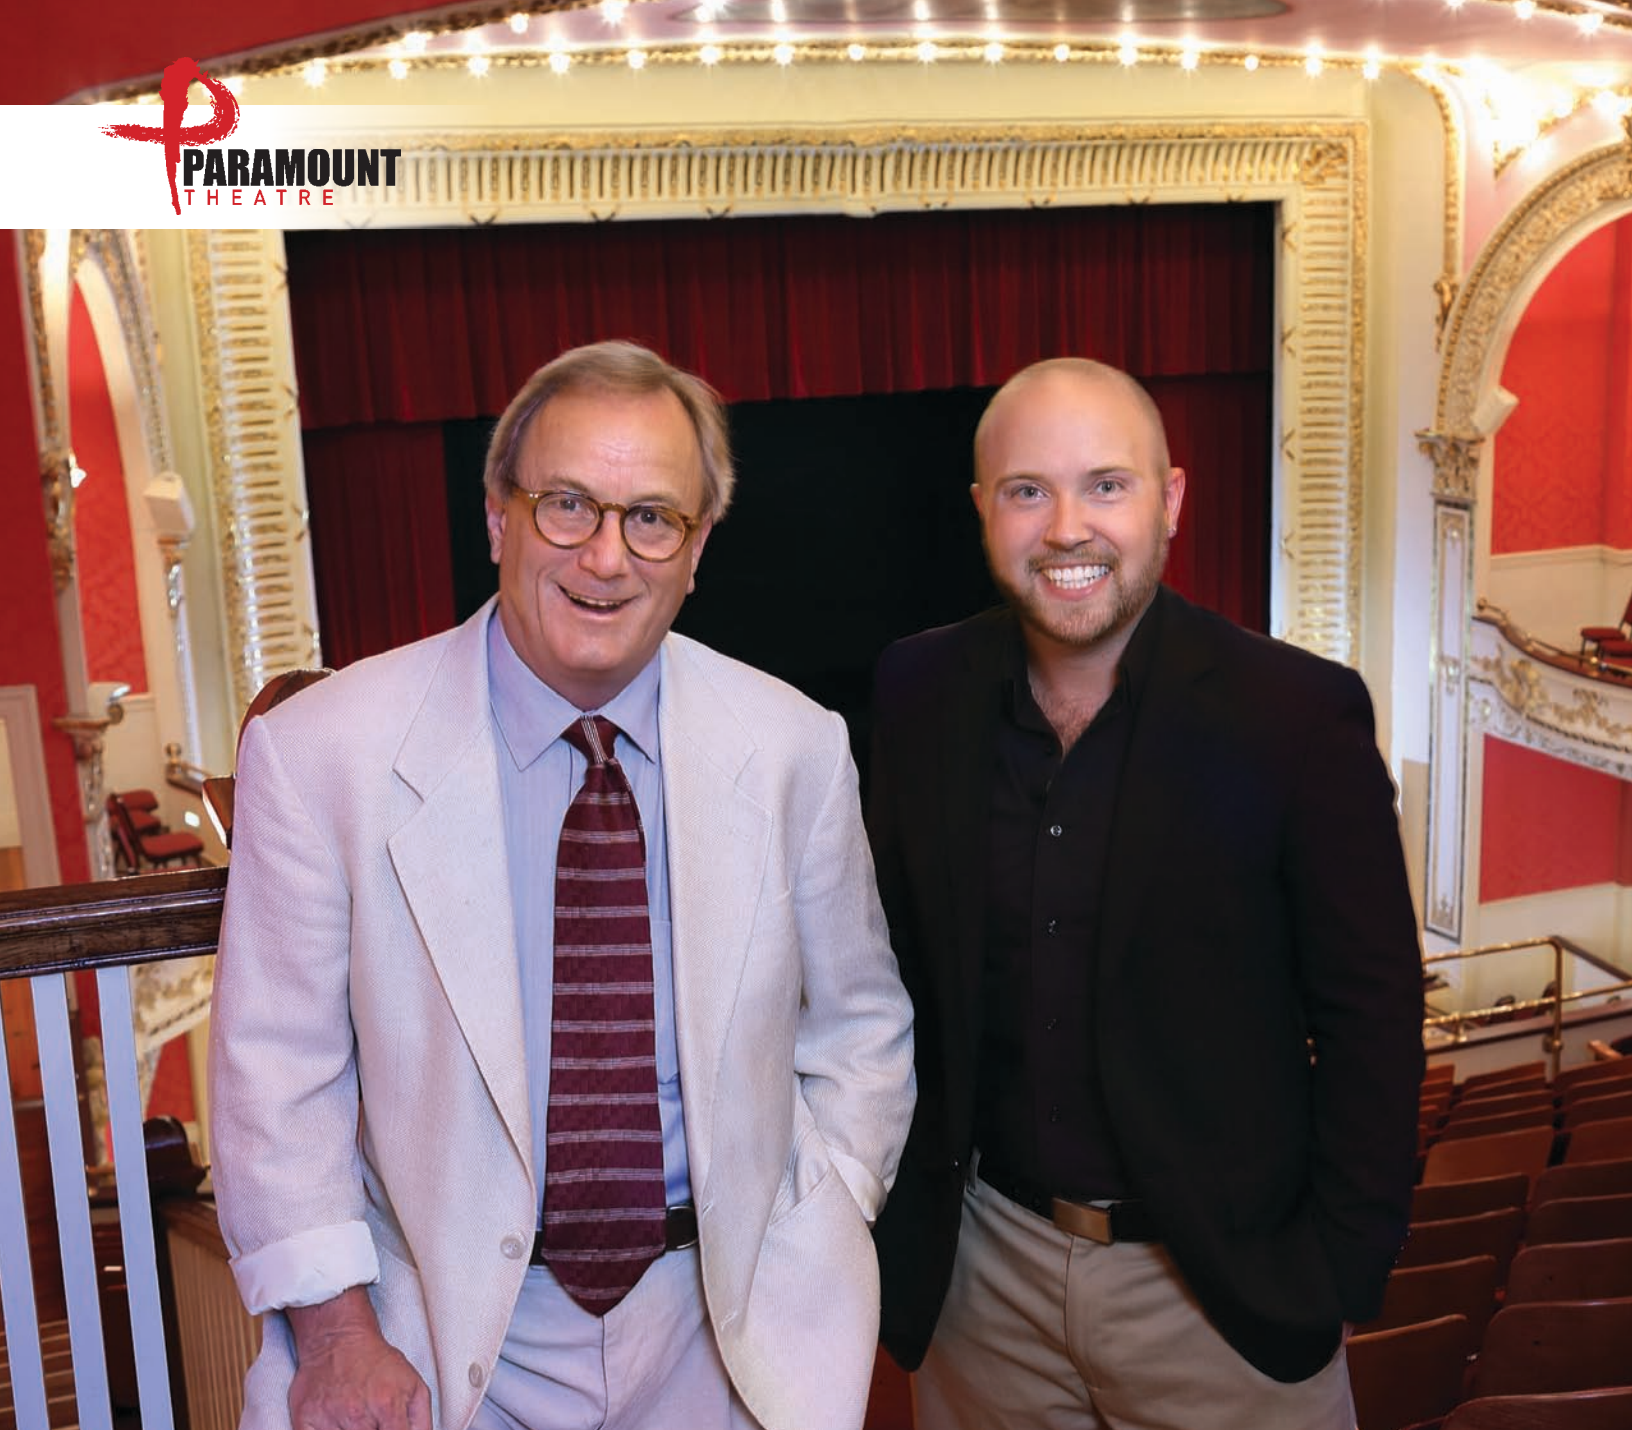

Rutland Rehab Massage

Medical massage is a niche Pam Lenoci has been providing through her practice for 16 years. Although therapeutic treatments are available through Rutland Rehab Massage, medical massage is the forte of the practice.

Those who have been injured on the job or in an accident can benefit tremendously from medical massage. As Rutland Rehab Massage is one of the few practices that accept payment from insurance providers, it becomes more cost effective for many of these individuals. Further, medical massage can be an integral part of a rehabilitation program, often preventing surgical intervention, can be used for pain management as an alternative to opiates and leads to improved overall health.

Pam has treated many children dealing with stress or injury and has made helping kids a lifelong endeavor. She is involved in the Upward Bound Program at Castleton University and instrumental in raising funds for the Alexandra Brown Memorial Scholarship, a scholarship in honor of her daughter who took her own life ten years ago. She speaks publicly about teenage suicide, teenage drinking and cyber bullying. Pam is passionate about sharing her daughter Alix's story in hopes it helps even one child through challenging times.

Pam's office is warm, inviting and private. She takes exceptional care of each and every client and believes massage therapy should be a part of everyone's health care plan.
